

REMINGTON

PRODUCTS COMPANY

COMPANY OVERVIEW

Remington Products Company, founded in 1934, has a history of quality and innovation in the design and manufacturing of cushioning, protection, and support products. Through the efforts of a multi-talented team of professionals and our full-service capabilities, Remington Products has become a leading U.S. manufacturer and worldwide supplier of aftermarket insoles, insoles for the footwear and footcare markets, post-operative footwear, medical grade orthotics, orthopedic softgoods, and braces.

Our state of the art manufacturing facility in Ohio includes product design and development, engineering, and tooling, and is led by a highly-skilled and dedicated team of employees. Through the years, the implementation of newer and more efficient technologies has allowed us to maintain our ability to deliver ever more diverse products with an increasingly higher level of quality, at a competitive price.
