

Elastic Wrist Support, 7" Length

Stabilizes the wrist while allowing for full dexterity. Latex-free, high quality elastic material. Features a removable and malleable palmar stay to maintain the wrist in a neutral cock-up position. Easy hook and loop closures. Available in right and left. Color: Black.

Features:

- Latex-free elastic
- Easy hook and loop closures

Approved for HCPCS Code L3908

Size	Wrist Circumference
XS	5" - 6 1/2"
SM	6" - 7"
MD	6 1/2" - 8"
LG	7" - 9"
XL	8 1/2" - 10"

8" Wrist Splint

Stabilizes the wrist while allowing for full finger dexterity. Made of an open-cell, breathable foam material that provides comfortable compression. Features a removable and malleable palmar stay and medial/lateral stays for extra support and immobilization. Prevents wrist flexion, extension, rotation, and deviation. Latex free. Available in right and left. Color: Black.

Features:

- Low on palmar crease allows for full finger movement
- Wide thumb opening for enhanced comfort
- Easy hook and loop closures provides easy, one hand application
- Stockinette lining

Approved for HCPCS Code L3908

Suede Wrist Splint, 8" or 10" Lengths

Stabilizes the wrist in the neutral, cock-up position. Anatomically shaped to sit low on the palm allowing for full finger dexterity. Removable and malleable palmar stay and metal dorsal stay prevent flexion and extension. Perforated suede finish material with a flannel liner provides comfort and absorbs moisture. Lace pull closure conforms for an even fit; easy to close with one hand. Latex free. Available in left and right. Color: Black. 8" Wrist or 10" Wrist/Forearm Lengths.

Features:

- Low on palmar crease to allow for full finger movement
- Adjustable thumb closure for enhanced comfort
- Quick-pull lace closures with hook and loop for easy, one hand application
- Stockinette lining
- 8" or 10" lengths

Approved for HCPCS Code L3908

Universal Thumb Spica

Comfortable thumb spica immobilizes the thumb joint, provides gentle protective positioning of the MP and CMC joints and wrist support. Made of compression-formed foam with no seams. Elastic straps for easy application and removal. Universal sizing and fits right or left thumb. Color: Black.

Features:

- Compression foam thumb spica with elastic straps
- Easy hook and loop closures
- Universal sizing

8" Wrist Splint with Abducted Thumb

Stabilizes the wrist and thumb while still allowing for full finger movement. Made of an open-cell, breathable foam material that provides comfortable compression. Added thumb spica portion to stabilize and protect the MP and CMC thumb joints. Features a removable and malleable palmar stay and medial/lateral stays for extra support and immobilization. Prevents wrist flexion, extension, rotation, and deviation. Latex free. Available in right and left. Color: Black.

Features:

- Low on palmar crease allows for full finger movement
- Thumb spica portion provides added thumb immobilization
- Easy hook and loop closures for easy, one hand application
- Stockinette lining

Approved for HCPCS Code L3807
